

Declaration of Patient Information Confidentiality

All patients admitted to University of Iowa Health Care are informed if “The Guiding Principles of Patient Care.” One of these principles, which direct the behavior of persons working at University of Iowa Hospitals and Clinics, is particularly applicable to your tour or educational experience.

"We will protect your individual privacy and give assurance that all communications and records regarding your care will be kept confidential."

Your tour or educational experience may allow you to view the retrieval of information from patient medical records and/or computer-stored patient information. Under no circumstances should this information be discussed with anyone.

The confidentiality of information about patients that you may view in the course of your educational experience is protected by state law. State law prohibits you from making any disclosure of the information unless you are specifically authorized to do so under the policies of your department.

I declare that I have read and understood the above aspects of patient confidentiality. Furthermore, I understand that violation of the confidentiality of patient information is reason for disciplinary action including the possible dismissal from the tour or educational experience and liability to civil and criminal penalties.
