

## **HISTORY**

In 1981, four physicians joined forces to create what is now Mission Cancer + Blood, a community-based oncology and hematology practice that seeks to deliver hope to lowans affected by cancer through trusted, compassionate and efficient care in locations across Iowa communities.

## **MISSION**

Provide patients with world-class, comprehensive cancer care and personalized treatment plans in a compassionate and trusting environment close to home.

## **VISION**

To provide all lowans with essential cancer care and contribute to the advancement of cutting-edge treatments.

## **CARE PHILOSOPHY**

- Dedicated and consistent care teams for each patient which includes a physician, advanced practice providers (APP), nurses, and schedulers
- Personalized plans with delivery of care in a community close to the patient
- Core values – Compassion, Connection, Integrity, Ingenuity

## **TEAM**

- 19 full-time physicians - board certified in medical oncology, hematology, and internal medicine
- 41 Advanced Practice Providers (APPs)
- 135+ nursing and professional staff members

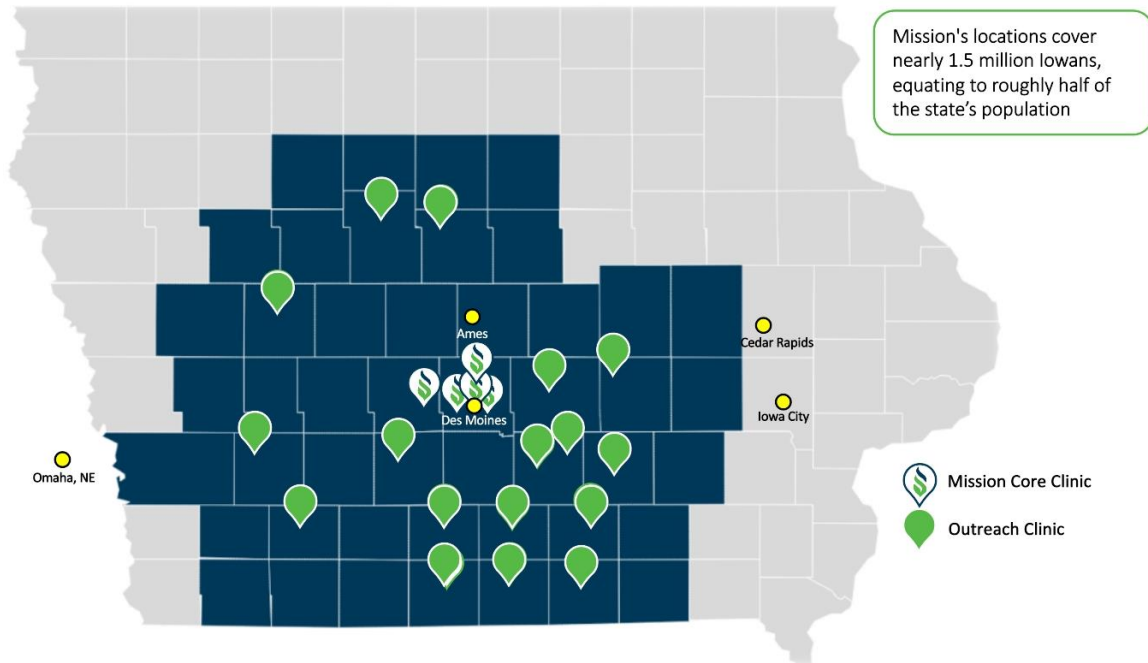

## **IMPACT**

- One of the largest providers of oncology services in Iowa
- 22 locations across Iowa
- 7,000 patients per month on average
- 15,000 lab tests processed per month
- 4,000 chemo infusion treatments per month

## **CLINICAL TRIALS**

Mission is proud to offer in-house trials through the Mission Trials Program, while continuing to partner with the Iowa-Wide Oncology Research Association / I-WORC N-CORP, the Des Moines Oncology Research Association (DORA), and Mercy Cancer Research. Mission Cancer has over 100 national and international research studies and clinical trials right here in central Iowa.
